Company Overview - Key Milestones

Cosmo First 
Ahead Always

▶ Established in 1981, Cosmo Films Ltd. is the pioneer of BOPP Films Industry in India;
▶ Today leading Specialty film player globally and leading BOPP player in India

Speciality & Semi Speciality Growth and Margins

Expanding Speciality & Semi-Speciality films portfolio (high margin category) (9M'FY24 64% volume; 13% CAGR over last 5 years).

Target 80%+ volume from Speciality & Semi Speciality segment by 2025.

Notes:

- 1) Speciality margins per/kg have witnessed a marginal decline in 9M'FY24 owing to change in sales mix and uneven orders from a specialty export customer for a high margin specialty film. We expect the trend to continue this year and shall normalize by next financial year.
- 2) Margins denote per/kg contribution for respective films categories.

Management Commentary

- During Q3'FY24, the domestic margin for both BOPP and BOPET shrank further due to desperate and below cost selling resorted by the industry. The Company could withstand the disorderly market movements and outperformed the industry at large on the strength and growth of its speciality film business.
- The near-term outlook in terms of BOPP and BOPET margins remains challenging.

Performance Snapshot – Management Commentary Continues ...

- ❑ The Company recently launched metallized capacitor film for electronic industry and Rigid Packaging for FMCG industry. Market response has been very good, and the Company expects to hit full capacity utilization in the next 2-3 quarters and add to EBITDA earnings.
- ❑ The Speciality Chemical subsidiary is progressing as per plan and is at the cusp of delivering double digit EBITDA and high teens ROCE from FY25.
- ❑ Zigly has undergone revamping of its IT infrastructure making it future ready for harnessing the exponential growth of Petcare industry in India. The marketing attribution has been rapidly improving with improvement in RoAS (Return on Advertising Spends) and other key performance parameters. With the exponential growth of Petcare industry in India, Zigly is estimated to become significant wealth creator for the Company's shareholders.
- ❑ The Company's credit rating has been re-affirmed by CRISIL as AA- with stable outlook in January 2024.
- ❑ While short term challenge remains due to adverse packaging film margin, the Company continues to build speciality films vertical and plans to launch high value-added sun control film (Cosmo Sunshield) in FY25. In the next 12-18 months, Speciality BOPET films, Sunshield films, Rigid Packaging and Specialty Chemicals would start adding to the Company's overall profitability.

Key Highlights – FY23 Results

- During FY23, BOPP and BOPET industry faced excess supply caused due to bunching of new production lines. The contribution margin has been dropping on BOPP and BOPET films each quarter continuously during FY23 and have reached below the sustainable levels in Q4, which impacted the whole BOPP and BOPET industry. Cosmo could still outperform and post double-digit EBITDA primarily due to 62% speciality films sales during FY23.
- While the near-term BOPP & BOPET outlook remain challenging, the Company's focus on speciality for BOPP and BOPET should keep the Company on leading front.

Key Financial Snapshot

Net debt/EBITDA 1.7 times and net debt to equity at 0.4 times (Sept'2023)
