Speciality Films for Sustainable Packaging

Flexible Packaging | Lamination | Labeling | Synthetic Paper

Company Overview

□India Industry – Key Dynamics and Capex Strategy

□Key Focus Areas - R&D, Sustainability and Specialty Company

Financials

Corporate Governance & Management

UWhy Invest in Cosmo Films?

□Corporate Social Responsibility

Company Overview

Strong History & Leading Position

- Established in 1981, Cosmo Films Ltd.is the pioneer of BOPP Films Industry in India.
- Promoted by Mr. Ashok Jaipuria, the company is also the largest BOPP film exporter from India.

Global Leader in Thermal Lam Films

With the acquisition of GBC Commercial Print in June 2009, Cosmo is now the world's largest producer of thermal lamination films.

Production Facilities

Units in India, Korea, & USA with annual installed capacity as follows: BOPP Films: 196K MT Thermal Films: 40K MT Coated Specialty Films: 20K MT Metalized Films: 22K MT CPP Films: 10K MT Masterbatch: 10k MT

Corporate Governance & Professional Management

Strong Independent board
 High on Corporate Governance
 Professional Management

Strong Export Footprints

□ Leading BOPP Films exporter from India with export to more than 100 countries .

Strong R&D Focus

□ Collective R&D experience of over 100 years.

Recently received one patent for Release BOPP Film and applied for a new patent for High Barrier CPP Film. This in addition to 6 patents in India and 3 in US.

Unique Proposition

- Uniquely positioned with good mix of specialty and commodity films.
- Widest product portfolio under one roof.
- Multiple lines allowing dedicated runs for speciality films.

Strong Financials

 Continuous growth and profitability track record.

Certification, Awards & Recognition

ISO 9001:2000
ISO 14001:2004
British Retail Consortium (BRC)
American Institute of Baking (AIB)
CII Excellence Award for 5S
Winner of several product innovation awards viz. PFFCA, Asia Star etc.

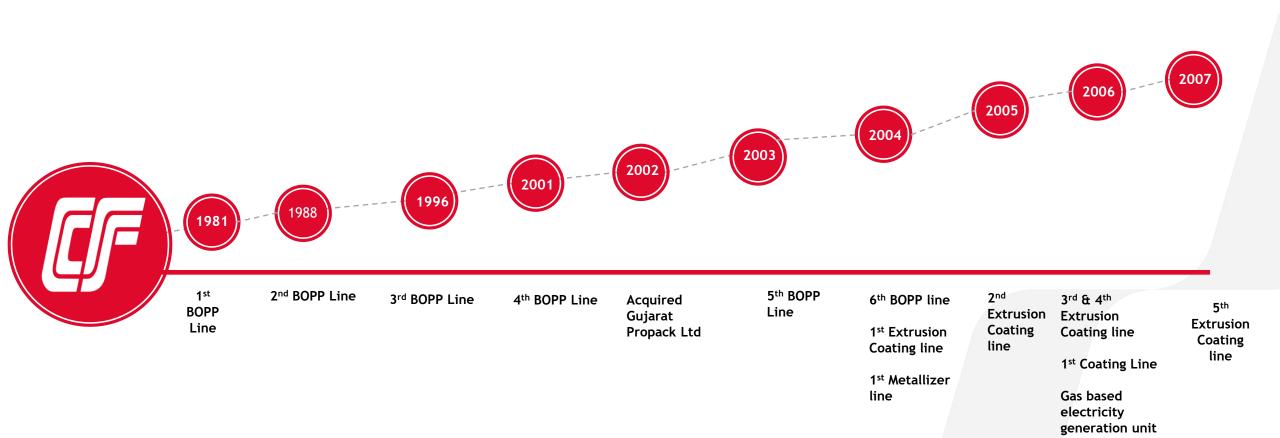

"To be the most preferred global brand offering value added oriented films for packaging, labels, lamination and industrial applications."

India Industry Dynamics and Capex Strategy

 Global BOPP demand is estimated to be approx 8 million(+) MT per annum
 The global demand and supply are broadly balanced Currently India BOPP production capability is estimated at approx.
 640k MT per annum.

- India domestic BOPP consumption is approx. 500k MT per annum and remaining is broadly exported.
- Indian BOPP Industry has been growing at almost double of the India's GDP growth rate over long term

Strong domestic and global demand is helping efficient capacity utilisation.

India BOPP Demand & Supply Dynamics:

Considering low packaged food penetration in India and rising personal disposable income, the Industry is estimated to grow fast.
 Investment in organized retail industry and change in pack format from rigid to flexible is going to further add to increasing demand.
 Based on capacity addition announced in India, new capacity expected in the Industry may not be able to address growing India demand. On current India BOPP Industry demand base, one new line each year may not be sufficient to address India's growing demand.

Data Source: AMI/PCI/Other Independent Research and Industry Sources

Key Focus Areas

Speciality and Product Mix

Skewing Product Mix more towards specialty products, with consequently better margins and removing cyclability impact.

R&D and Sustainability Focus

More & more green practices in manufacturing, more films enabling circular economy. Innovation led products.

Customer Centric

2

3

Creating Customer Centric Culture:- Robust Service Offer, New Offices Overseas, CRM, Establishing tripartite partnership between us, Converter and Brand Owners.

Capex Strategy and Capacity Expansion

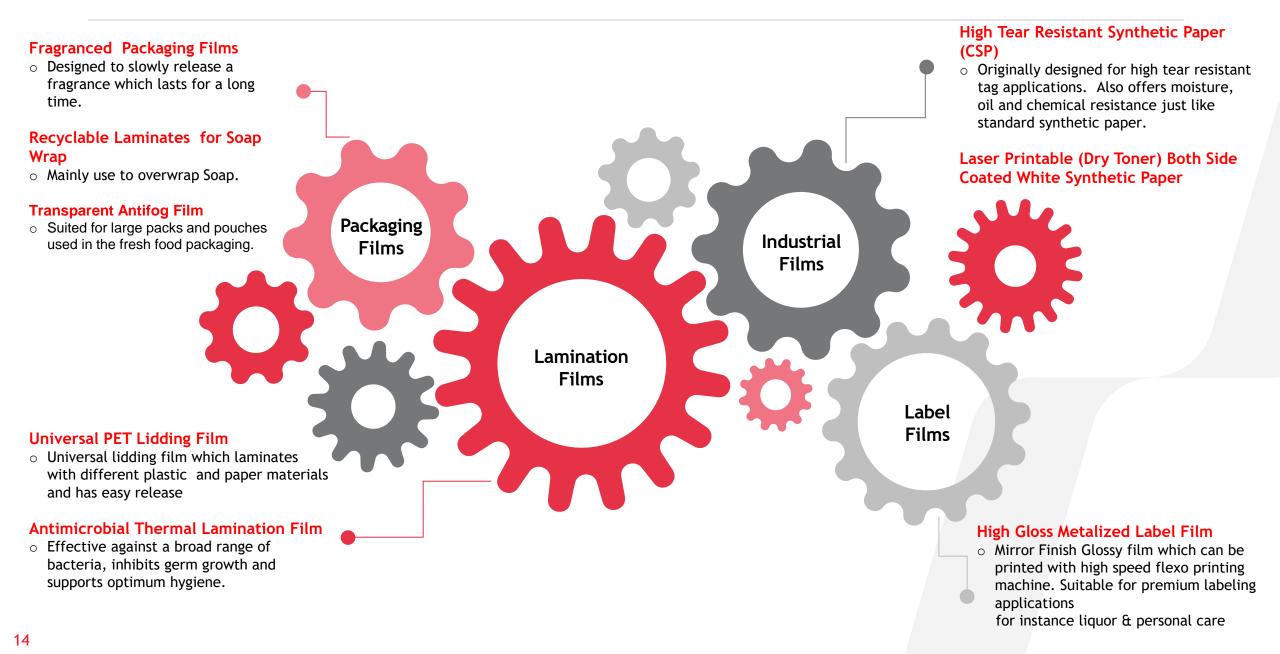

Further Capacity expansion is planned mainly in Value Add segment and sustainability for next 2 years.

Diversification

Playing in strength areas, diversifying into special chemical manufacturing and B2C for specific products Pets Care vertical

Key Specialty Products launched during last few quarters

Research and Development - A Snapshot

Focus areas

- Identifying technical (product/applications) growth areas through customer activities, exhibitions, publications and technical interactions
- Support water based printing and complete replacement of solvent based coatings with water based coatings
- Increase the occupancy of value adds in the products baskets
- Reduce carbon footprints through down gauging in our products and reducing consumption of raw materials & fuel

- R&D labs with most sophisticated equipments, one in India & one in the US
- Some of the equipments
 - Barrier Testing (OTR & MVTR)
 - Differential Scanning Calorimeter (DSC)
 - Thermo Gravimetric Analysis (TGA)
 - Mass Spectrometer (MS)
 - Optical Microscope
 - Dynamic Mechanical Analyzer
 - Perkin Elmer FTIR
 - UV spot coating and screen printing
 - Scanning Electron Microscope (SEM)

٠

- ANSI Barcode scanner
- UV flexoproof 100

Achievements

- Recognition and certification by Department of Scientific & Industrial Research, Government of India
- Recently received one patent for Release BOPP Film
- Multiple patents with 6 in India and 3 in the US
- Multiple product development Awards such as Indiastar, IFCA STAR and PFFCA STAR awards
- First thermal lamination film to take extrusion coating without the primer

The R&D team has PHD's & Post Docs from renowned universities in the USA and Europe. Global experience in Packaging, Polymer Engineering, Biopolymers and Nanomaterials.

Recent R&D led infrastructure Investment

- Investment of 1M\$+ in new R&D centre in India
- New pilot line for customized product trials for film manufacturing, coating and lamination.
- Product Application Centre to validate print quality in-house
 - Screen, UV Flexo, Direct Thermal and Thermal Transfer printer
- Recently installed a new highly automated 2.2 meter coating line; capable of both sides coating in a single pass

Sustainable Product Practices

01 Offer mono-material poly-olefin films for ease of recycling

03 Company has been partnering with some of the best global brands to offer structure rationalization

04 Both BOPP and CPP films offer better yield, hence enabling reduced consumption of plastics

05 Offer a suitable substitute for aluminum foil in form of its Ultra-High Barrier Films

- 06 Offer Oxo-Biodegradable Films
- 07 Use of Water Based Coatings

UV stabilized Synthetic Paper can be used to replace PVC in outdoor promotional applications for shorter duration requirements up to one year

Customer Centricity to become Global preferred Player

Sales Team

Strengthening Sales team:local resources in several countries, dedicated resource for engagement with global brands, etc.

Expansion

Expanding Customer base in Potential Segments and Geo-Markets

> Engagement Improving End User Engagement

Customer Centric Culture

Creating Customer Centric Culture:- Robust Service Offer, CRM, Cross Functional Alignment

Brand Visibility

Creating brand visibility globally:- Digital marketing, Print Media advertising, Trade shows participation etc.

Solution Approach

Solution approach to Selling:-Establishing tripartite partnership between us, Converter and Brand Owners to find solutions for unmet needs

CRM- A 360 degree view for Customers

CF

- Visibility to stage wise progress of order from order receipt to order dispatch
- Auto email alerts at every stage of order processing with the final email containing LR/BL documents
- Automated process of sending invoice, packing lists and shipment plan to customers along with an option for downloading the documents online
- Complete visibility to receivables and statement of account in simple clicks
- Easy to log complaint and track status
- Option of uploading supporting photographs for faster complaint resolution
- Customer Portal Available on cloud, can be accessible from anywhere on any device

Initiatives to improve Quality Culture

- Implemented Six Sigma System at the organizational level to improve quality culture.
- 15 people trained as six sigma green belts last year, completed 10 projects covering quality, cost reduction and process improvements.
- Second batch of six sigma underway, new projects initiated.
- Implementation of 5S at shop floor is underway to make Cosmo shop floors world class.
- Taken initiatives like double door system on each door, automating door closures etc.
- Green rating awarded by EcoVadis Sustainability Ratings
- Initiated lean manufacturing from our Karjan unit which shall be horizontally deployed at all three locations.

- Initiated small quality improvement projects with lower level cross functional teams to reduce customer quality complaints.
- Started shop floor technical training for sales & marketing team for better understanding of product applications and manufacturing processes.
- Got A grade rating from two of major customers during plant quality audit.
- Customer complaint weekly QA meeting has been started and has been adding value to the quality management system.
- Initiated sharing product success stories for publishing on social media.
- Developed online COA (Certificate of analysis) generation application in SAP for all three units to provide system generated COAs to customers.

Cameras are installed on BOPP, Coating and Extrusion Coating Lines to detect inline defects and then rectify them

Some Recent Achievements

FY 2019-20

- Ranked as 10th in the list of Fortune's Next 500 midsize companies
- Brand Excellence Awards for Effective Use of Marketing Communication & for Engineering, Research and Development Sector
- Recognized as one of the top 500 corporates by Dun & Bradstreet
- Received the Best Employer Award at the 14th Aurangabad Employer Branding Awards
- Received the Aurangabad Manufacturing Leadership Award by the World Quality Congress
- Business Transformation Awards for exemplary innovation and transformation

FY 2018-19

- Mr. Poddar received the "Young Business Leader Award" at the Dare to Dream Awards, presented by Zee Business in association with SAP
- Mr. Poddar bagged the "People's CEO Award" at NIPM National HR Excellence Award
- Received the "SAP ACE Award" by SAP INDUS
- Received the "SAP Hana Visionary Award" by SAP

COVID-19 Impact

- □ The Company continues to closely monitor the impact of the Covid-19 pandemic on all aspects of its business.
- □ As the Company is engaged in the business of flexible packaging films which is part of essential commodities, and therefore, the pandemic had marginal impact on the business operations of the Company.
- □ The management has exercised due care in concluding significant accounting judgments and estimates, inter-alia, recoverability of receivables, impairment assessment of financial and non-financial assets, realisability of Inventory and accordingly noted no significant impact on its financial results.
- □ Further, management believes that the Company will be able to discharge the liabilities as and when falling due.
- □ The Company will continue to monitor current and future conditions and impact thereof on Company's operations.

Pets Care Vertical

- □ The Company is going ahead with the pilot launch in NCR investing about 15-18 crores over next 18 months to ascertain the sanctity and viability of the Pets Care business to launch it at a larger scale.
- □ The overall investment is expected to remain marginal vis-à-vis size of existing business.
- Pets care business has been growing in India at 22% CAGR. With smaller families, rising income levels and limited social lives (especially post Covid), Pet adoption will increase many folds.
- □ The business scenario is highly fragmented and there is no organized players in India offering end to end comprehensive solution to the customers.
- Cosmo expects to fill up this void. Pets care is a low capex business while Brand Building will require some investments in the initial years.
- The Company believes the business will deliver high returns, high valuation and add significant value to shareholders
- □ The activities are on track for petcare including but not limited to IT infrastructure, brand strategy and resource building for providing best of customer's experience. We are expecting pilot launch in NCR by Q1 FY22.

Key Highlights - Q2, FY20-21 Results

The Company's volume got normalized during Q2, FY21 which was impacted in Q1, FY21 temporarily due to Covid-19 pandemic impact.

The Company posted highest ever EBITDA of Rs.99 crores during Q2 FY21 on the back of higher speciality sales and improved operating margins from last year.

The Company has initiated commercial production from Masterbatch plant during Q2, FY21 which will pick volume during H2, FY21. The Company is set to grow specialty further as we are enabling some large production lines to manufacture specialty products from Q4, FY21. The specialized BOPET project and Petcare are progressing well in line with the plan.

Covid-19 pandemic had marginal impact during the quarter. The Company expects that Covid-19 impact may remain only marginal in the following quarters too barring unforeseen conditions.
